Fenosa: Catalogue Raisonne de l'Oeuvre Graphique Nicole Fenosa, Bertrand Tillier

This is a superbly illustrated survey of the graphic work of famed sculptor and skilled artist Apelles Fenosa. Apelles Fenosa (1899-1988) was one of the most highly regarded and critically acclaimed sculptors of his generation. He held solo and group exhibitions across the globe, and was one of Pablo Picasso's favourite artists. Although best known for his sculptural work, including both small and monumental pieces, Fenosa was also highly skilled with the pencil and paintbrush. "Fenosa" is a lavishly illustrated volume that brings together a stunning collection of more than 2,000 drawings, paintings, and illustrations from Fenosa's early career to just before his death in the late 1980s. Featuring insightful and informative essays, this will become a cherished addition to any art-lovers collection.
